

Futures Canterbury – Concession card System

All new junior and youth members will receive a concession card in their membership pack, along with anyone renewing their membership.

- The card is used to track rounds played at other hub clubs (apart from your selected associated club).
- Each time you play at another club in your hub (North-East or Selwyn), a round will be marked off your card with a hole punch by the club's staff.
- This makes it easy for you to see how many rounds you have left.

How It Works

- **Unlimited rounds** at your selected associated club (chosen at registration), within the course access times they allow.
- **Up to 5 rounds** at each of the other participating clubs in your hub.

Example: If you join the North-East Hub and select Hagley as your home club, you can play there as often as you like under the course availability times. You'll also get up to 5 rounds each at Bottle Lake, Rangiora, Waimairi Beach & McLeans Island.
